Mobile Application

per extension
R30
per month

Work on the Move

A Mobile Unified Communications application designed to provide business users with a set of features and benefits capable of transforming your company's communications system into a real powerhouse. It is available on Google Android and Apple iOS.

Experience efficiency at its best with Cloudcall Mobile app. Plan phone calls, control your time and define availability using the Presence panel functionality integrated with Cloudcall Hosted PBX.

Unified Connections

Allow you to access all of your connections, including the ones on Cloudcall from any device.

Conferencing

Our mobile application allows you to join existing static and dynamic conferences on the system, check conference participants and invite new users to the conference. Depending on the assigned conference privileges, users can also mute and kick off conference members.

Visual Voicemail

Cloudcall Mobile allows you to easily manage your voicemail messages from a mobile phone.

- **R30** per extension per month, minimum term of 3 months.
- Requires an existing **Cloudcall Lite** or **Cloudcall Business** Hosted PBX license.
- Available on **Google Android** and **Apple iOS** smartphone devices.
- Quick to roll out for existing Cloudcall clients.
- Utilises mobile and/or WiFi data.
